Danske Invest Management A/S is authorised in Denmark and regulated by Finanstilsynet (the Financial Supervisory Authority in Denmark).
Publication date:	05.01.2026

What is the product?

Type

The product is a share class of a Danske Invest SICAV - SIF fund. Danske Invest SICAV - SIF is an umbrella structure under the SIF law with several alternative investment funds. This fund is restricted to investors who qualify as "Well-Informed Investors" as defined in the prospectus.

The prospectus and the periodic reports are made for the whole Danske Invest SICAV - SIF but with information for each fund.

Your investments will not be affected by the development in any other Danske Invest SICAV - SIF fund, as the assets and liabilities of each fund are segregated by law.

Term

The fund has no defined maturity date. However, please note that the fund may be closed if it is in the interests of the shareholders and endorsed by the board in relation with specific conditions or circumstances as described in the prospectus.

Objectives

The objective of this fund is to achieve long-term investment growth in any type of market condition (absolute return). The share class is accumulating.

The fund invests primarily in structured credit, i.e. Collateralised Loan Obligations (CLO) notes and specifically, in the mezzanine and equity tranches of the CLO's, rated below Baa3/BBB-. The fund's investments may be rated or unrated and they are unconstrained by reference to sector. The fund's target is to have US and European geographical exposure.

The fund pursues an active long-only investment strategy favouring investments which provide continuous income streams, e.g. coupons. The investments may include CLOs across the risk spectrum and assets that are in a distressed situation.

The fund is categorised as article 8 under SFDR and promotes environmental and/or social characteristics, as well as good governance practices, through screening, exclusions, investment analysis and decision-making. The fund follows Danske Invest's responsible investment policy.

The fund may use derivatives for hedging and efficient portfolio management. Maximum leverage should not exceed 200%.

Benchmark

The fund has no benchmark.

Further information

Further information about this alternative investment fund is available online at www.danskeinvest.com. The decision to invest in the fund should take into account all of the sustainable investment objectives (if any) and/or other environmental and/or social characteristics (if any) of the fund, as described in the prospectus and on [danskeinvest.com](http://www.danskeinvest.com).

More detailed information about this alternative investment fund is available in the prospectus or in the latest semi-annual and annual reports which are available free of charge at www.danskeinvest.com.

Price publication

The Net Asset Value for the alternative investment fund is calculated on each business day. The latest prices are available online at www.danskeinvest.com.

General trading terms

Fund shares can normally be purchased, converted or redeemed on trade days, as defined in the "Sub-Fund Overview" section of the relevant appendix to the prospectus.

Please also refer to the following sections of the prospectus: "Issue of Shares", "Conversion of Shares" and "Redemption of Shares".

If you wish to switch between one alternative investment fund under Danske Invest SICAV - SIF to another fund, you may buy or sell the shares on general trading terms.

Tax legislation

The fund is subject to the tax laws and regulations of Luxembourg. Depending on your own country of residence, this may have an impact on your investment or your personal tax position. For further details please consult a tax adviser.

Depository

J.P. Morgan SE - Luxembourg Branch

Intended retail investor

The product is suitable for institutional, professional and well informed investors, who understand the risks of the fund and plan to invest at least for 5 years. Retail investors, who wish to invest into the fund, must qualify as well-informed investors according to the prospectus and applicable laws. For further information refer to the prospectus. Before offering the product to retail investors, qualifying as well-informed investors, the financial advisor must ensure Danske Invest Management A/S possesses the approval to market this product to retail investors in your country.

What are the risks and what could I get in return?

Lower risk

Higher risk

! The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Be aware of currency risk. In some circumstances you may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level. This classification may change and may not reliably indicate the future risk profile of the fund. The lowest category does not mean risk free.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The fund may use derivatives and also be exposed to valuation risk and event risk, e.g. changes in the regulatory or political situation. These risks may not be fully reflected in the risk indicator.

For further details about risk, please refer to the following section in the fund's prospectus: "Risk Factors".

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example Investment:		5 year(s) EUR 10,000		
		If you exit after 1 year(s)	If you exit after 3 year(s)	If you exit after 5 year(s)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	What you might get back after costs	EUR 5,616	EUR 5,860	EUR 10,408
	Average return each year	-43.8%	-16.3%	0.8%
Unfavourable	What you might get back after costs	EUR 5,616	EUR 5,860	EUR 10,408
	Average return each year	-43.8%	-16.3%	0.8%
Moderate	What you might get back after costs	EUR 10,752	EUR 11,944	EUR 13,972
	Average return each year	7.5%	6.1%	6.9%
Favourable	What you might get back after costs	EUR 18,742	EUR 18,916	EUR 25,994
	Average return each year	87.4%	23.7%	21.0%

Unfavourable scenario: This type of scenario occurred for an investment between 31.03.2018 and 31.03.2023.

Moderate scenario: This type of scenario occurred for an investment between 30.09.2016 and 30.09.2021.

Favourable scenario: This type of scenario occurred for an investment between 30.04.2020 and 30.04.2025.

Calculation method

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

What happens if Danske Invest Management A/S is unable to pay out?

The fund assets are kept separate from the AIFM's own assets. They are safeguarded and controlled by the fund depositary bank and are kept separate from this bank's own assets. Therefore, neither an insolvency of the AIFM nor of the depositary bank will make you lose the money invested in the fund. The product is not protected by the Investor Compensation Scheme.

What are the costs?

The person advising on or selling you this product may charge you other cost. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year(s)	If you exit after 3 year(s)	If you exit after 5 year(s)
Total costs	EUR 594	EUR 982	EUR 1,370
Annual cost impact (*)	5.94%	3.27% each year	2.74% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.7% before costs and 6.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

One-off costs upon entry or exit (EUR 10,000)		If you exit after 1 year
Entry cost	1.00% of the invested amount in subscription cost when subscribing to the fund. This is the most you will be charged. The distributor will inform you of the actual cost.	Up to EUR 100
Exit cost	3.00% of the redeemed amount in redemption cost. This is the most you will be charged. The distributor will inform you of the actual cost.	Up to EUR 300
Ongoing costs taken each year		
Management fees and other administrative or operating costs	Annual ongoing cost of the product is 1.10%. This is an estimate based on actual costs over the last calendar year.	EUR 110
Transaction costs	0.20% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 20
Incidental costs taken under specific conditions		
Performance fees	15% of the share-class outperformance compared to the reference indicator, which is the High-water mark adjusted by Euro short-term rate (ESTRON) + 7%. The average of the last 5 years performance fee was 0.64%.	EUR 64

How long should I hold it and can I take money out early?

Recommended holding period: 5 years.

The recommended holding period is determined by the principle risks of the fund as described in the section "What are the risk and what could I get in return". Fund shares can normally be purchased, converted or

redeemed on trade days, as defined in the "Fund Overview" section of the relevant appendix to the prospectus. Please also refer to the following sections of the prospectus: "Issue of Shares", "Conversion of Shares" and "Redemption of Shares". The redemption fees are not depending on your holding period. Please refer back to "What are the cost" section.

How can I complain?

Customer complaints regarding the funds managed by Danske Invest Management A/S should be addressed to:

Danske Invest Management A/S,
Bernstorffsgade 40,
1577 København V,
Attn.: Complaints handling responsible
