Contact number for PRIP manufacturer:	Call +45 45 13 73 06 for more information
Competent Authority:	Authorised by the Danish Financial Supervisory
Date of production:	The date of this Key Information Document is 27 June 2018

**Alert:** You are about to purchase a product that is not simple and may be difficult to understand.

## What is this product?

### Type

OTC - Equity Look-Alike Futures - obligation to sell

### Objectives

This Equity Future gives you the obligation to sell a specified number of shares of an issuer or a basket of shares of several issuers at maturity at a pre-agreed price. The value of the Equity Future during the period until expiry depends on the market price of the underlying shares, maturity date, interest rates and dividends. The value of the Futures at expiry depends on whether you agree to execute physical delivery of the shares in exchange for the pre-agreed price or pay or receive a cash amount equal to the difference between the market price of the shares on the pre-agreed date and the pre-agreed price.

The product achieves its objectives by (1) Danske Bank agreeing the terms of the Equity Look-Alike Future with you; and (2) Danske Bank giving you the obligation to sell a specified number of shares/basket of shares.

The exact terms will be set out in an individual trade confirmation.

The product terms provide that if certain exceptional events occur (1) Danske Bank may adjust the product and/or (2) Danske Bank or you may terminate the product early. These events are specified in the product terms and principally relate to the underlying, the product and the condition of you and Danske Bank. The return (if any) you receive on such early termination is likely to be different from the scenarios described above.

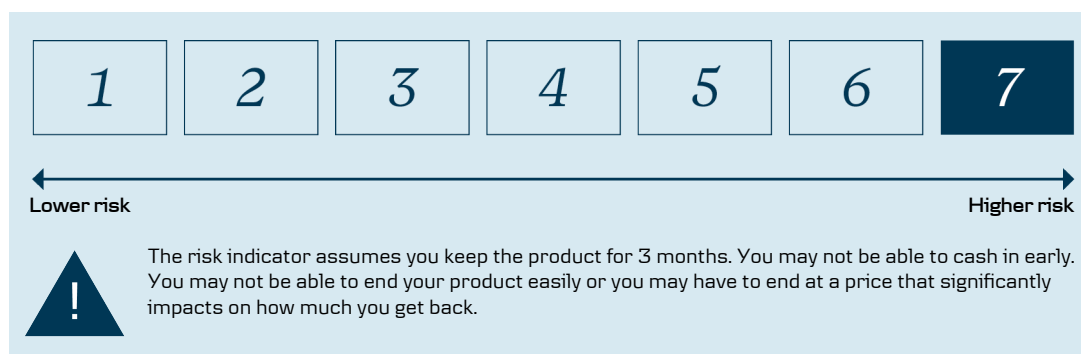

### Intended retail investor

This product is intended for retail investors who understand there is a risk of an unlimited loss. We recommend investors to hold the Equity Future for a limited period, although investors have the right to hold Equity Futures until their expiry date.

### Term

The expiry date of the Equity Future is set out in the confirmation for the product. The product is entered into for its term, although early termination may occur in the event of default by either you or Danske Bank.

## What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 7 out of 7, which is the highest risk class. **Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. In some circumstances you may be required to make further payments to pay for losses. **The total loss you may incur may significantly exceed the amount invested.** This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment. However, you may benefit from a consumer protection scheme (see the section 'what happens if we are unable to pay you'). The indicator shown above does not consider this protection.

This graph shows the money you could get back over the next 3 months, under different scenarios, assuming that you invest EUR 10,000.00. This graph illustrates how your investment could perform. You can compare them with the pay-off graphs of other derivatives. The graph presented gives a range of possible outcomes and is not an exact indication of what you might get back. What you get will vary depending on how the underlying will develop. For each value of the underlying, the graph shows what the profit or loss of the product would be. The horizontal axis shows the various possible prices of the underlying value on the expiry date and the vertical axis shows the profit or loss. Buying this product holds that you think the underlying price will decrease.

## What happens if Danske Bank is unable to pay out?

The product is not protected by the Financial Services Compensation Scheme or any other investor compensation or guarantee scheme. This means that if Danske Bank is unable to pay out, you may lose all of your expected payments.

## What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself. They include potential early exit penalties. The figures assume you invest EUR 10,000.00. The figures are estimates and may change in the future.

### Cost over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

**Scenarios** *If you cash in at the end of the recommended holding period*

<b>Total costs</b>	EUR 0.00
<b>Impact on return (RIY) per year</b>	0.00%

### Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

*This table shows the impact on return per year*

One-off costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	None		
Incidental costs	None		

## How long should I hold it and can I take money out early?

Recommended holding period: 3 months

## *How can I complain?*

---

Complaints about the product, the conduct of Danske Bank and/or the person advising on, or selling the product, should be addressed to Danske Bank, Juridisk Afdeling, Holmens Kanal 2-12, 1092 København K ([klageservice@danskebank.dk](mailto:klageservice@danskebank.dk)).

## *Other relevant information*
